# Forest Fire Warden's Report

---

Dear Mr. & Mrs. & Family :

Once again our region is covered with snow and the forest fire hazard has disappeared, but to your local forest fire warden it is just a time to check over his equipment and check the causes of the fires he has had. We know that our biggest cause of forest fires are careless people burning rubbish, brush or debris without a permit or in an unsafe place. When this fire gets away from them and help is needed to put it out they then plead that they did not know a permit was required for the incinerator or this type burning. Well the old saying ignorance of the law is no excuse fits in here very well. The forest fire laws have been in the newspapers, on the radio and on television and are on some posters, and there should be no excuses for not knowing a permit is required for all outdoor burning. In this year's report we are going to quote the law of the state of New Hampshire in regards to permits, this is found in Chapter 233 - Section 35 revised laws, State of New Hampshire.

## Permits

35b No person, firm or corporation shall kindle or cause to be kindled any fire or shall burn or cause to be burned any material, and no city or town shall kindle or maintain a fire or a public dump in or near woodlands, pasture, brush, sprout, waste, or cutover land or where fire may be communicated to such lands, except when the ground is covered with snow, without first obtaining a written permit from the forest fire warden of the town where the burning is to be done unless the same is in the presence of the warden or his agent.

## Liability for fires without permit.

36 Any person causing or kindling a fire without permit of the forest fire warden when such permit is required and any person by whose negligence or the negligence of his agents any fire shall be caused, shall be liable in a civil action for the payment to the town or the state or both, of the expenses incurred by the forest fire warden or his deputy warden in attending or extinguishing such fire.

## Penalties

38 Any person violating any provisions of section 35 shall be fined not more than two hundred dollars or imprisoned not more than sixty days.

## Report of School Nurse

---

The usual tests were made to find any defects in vision and hearing. All defects were recorded, parents notified and early corrections made. Routine Spring and Fall heights and weights of the children were checked.

In November and December, 92 children had physical examinations at Sandwich Central school and 36 at Quimby School by the school physician, Dr. Harold Conrad, Jr. Recommendations were made to improve any defect found.

Free vitamin pills were given all children in the central school during the winter months. This was made possible through the local Red Cross.

Frequent inspections throughout the year were made of each child.

Several communicable diseases were reported to the school nurse with measles most prevalent.

Some students returned to the Orthopedic Clinic at Laconia for re-evaluation of defects previously found.

In September, T.B. patch tests were applied to 92 Central School students and to 38 Quimby students. A Chest X-ray Clinic was held at the Quimby School on September 30, 1958 with Dr. Kerr of Manchester attending.

On May 21, a Pre-School Registration Day was held with 9 children attending. This day is for the young children entering school the following September and parents to acquaint themselves with school activities. The school nurse checked heights, weights, vision and recorded information necessary to start the Health Records kept on each child.

# Report of Superintendent of Schools

---

To the Members of the School Board and  
Citizens of Sandwich:

I hereby present my fourth annual report as Superintendent of Supervisory Union #2 which includes the Sandwich Central School.

This past year has seen a great deal of publicity both locally and nationally on our schools. The State Department of Education put into effect the "Minimum Standards;" Dr. James B. Conant, president emeritus of Harvard, concluded his study of "The American High School Today;" and Congress passed "The National Defense Education Act of 1958," which brings to our educational system new resources and encouragement at a time when they are critically needed.

The "Minimum Standards," "Conant Report," and the "Educational Defense Act" have one thing in common and that is that every young person, from the day he first enters school, should have an opportunity to develop his gifts to the fullest. The Conant report brings out the fact that the most significant contribution the United States has made to the forward march of civilization has been the development of our pattern of public education, because this pattern reflects the ideals that have been characteristic of this Nation. The only way we can continue to do this is to help children think critically and clearly, distinguish between fact and opinion, statistical fallacy and basic truth.

## P. T. A.

The P. T. A. is to be complimented in bringing so many worthwhile programs to the parents and for the fine cooperation with the personnel at school.

## Secondary Education

There have been many changes in the educational program at Quimby School, especially in the Business Education, Industrial Arts and Language offerings in meeting the new Minimum Standards as set up by the State Department. Mr. Albert Hoag, a member of the staff, succeeded Mr. Orlando Lester who retired in June, after serving Quimby School so faithfully for the past eleven years.

## **Educational TV**

There is no question but what commercial TV has been able to make a big impression on the lives of the present day boy and girl and now plans are underway so that by next fall channel 11, station WENH at the University of New Hampshire, will be in operation with educational programs in art, music, science and the social studies.

## **Transportation**

The transportation of school children is one of the big problems that confronts every school board, especially in regard to safety of equipment and drivers. We are very fortunate indeed in having contract carriers who make it a point to have the busses in top mechanical condition, and drivers that take an active part in the educational process and safety of each child.

## **Conclusion**

This has been a very pleasant and enjoyable year as I feel we are continuing to move forward in enriching the experiences of our boys and girls.

I wish to extend my sincere appreciation to the members of the School Board, staff and citizens of the community for the excellent cooperation and assistance I have received.

Respectfully submitted,

MARTIN E. HEFFERNAN

Superintendent

## REPORT OF PRINCIPAL

---

This year has been my first year as principal and teacher of grades seven and eight, replacing Mrs. Pierce who has accepted a position at the Inter-Lakes High School. Another new member to our teaching staff this year is Mrs. Wiggins, formerly a practice teacher here, and now teaching grades one and two. Mrs. Berry alternated from her usual rôle of first and second grade teacher to take over the third and fourth grades. Mrs. Plummer has remained in charge of the fifth and sixth grades.

Our school lunch program has been an excellent one this year under the capable guidance of Mrs. Tilton, who has done much to keep the meals balanced, varied and attractive. In addition, the idea of a "mother's helper" was sponsored by the P. T. A. this year. This has proved of great value to our program and all those who have taken part are to be sincerely thanked.

Mr. Cowan, our new music supervisor, visits both the Central School and Quimby School one a week. At Christmas time a well conducted program was presented by these two schools jointly, under his direction. During the last half of the year Mr. Cowan has been working exceptionally hard to initiate a worthwhile instrumental program for the two schools.

It has been our endeavor to work closely with the Quimby School this year, believing that education is not a thing of fits and starts, but a continuous process; that the student must become aware of what lies ahead and to prepare himself for each step before it is made. To this end we have inaugurated a shop and home economics class, once a week, at the Quimby School. This has been accomplished through the kindness of Mr. Hoag for the use of his facilities and the cooperation of the Quimby teaching staff. The program fills a definite need at the seventh and eighth grade level, while familiarizing the student with high school techniques. It has proved so worthwhile that the possibility of an expansion into a period of scientific laboratory work, another year, is not to be overlooked. Additionally, we have attempted to meet and discuss those educational problems which effect both the institutions in the hope of offering the student a stronger edu-

cation; we have agreed upon an exchange of facilities, material or personnel when and where practical. An instance of the latter would be the recent visits of Mrs. Henry to teach some basic Spanish to Mrs. Plummer's class while they are studying our Latin American neighbors. It is certainly hoped that such a fine feeling of cooperation may be continued for many years.

Respectfully submitted,

Giles Low, Jr.
